CSC150 Peer Review - Example

Your Name: Jacob Lilly
Teammate Name: Muhammad Bilal
Assignment: Math Tutor V3

Write a brief paragraph(s) that highlights strengths and, if applicable, offers constructive feedback.

Keep the tone respectful and focus on the outcome (what was done), not personality. Consider using AI to ensure that the recipient receives the peer review in a positive and productive manner, even if constructive feedback is required.

Bilal was fun to work with. He understood how to program a little more than me but he was supportive to help me understand it more. We both needed some help with so we looked in zybooks, online, and asked Mrs. Debbie and we solved our problems.

I would enjoy working with Bilal later in class. He always was professional and eager to work with me. We pushed and pulled code with github about every other day but we worked together in class and a lot outside of class.
